Yes. They'll be meeting with Alex Dunn and Tate at 2:00pm. They would like to discuss "international issues and particularly EPA engagement with other agencies on matters related to agricultural trade and exports" with us.

Do you know if Dr. Miller is also meeting with Alex Dunn since OSCPP handles the agricultural crop issues?

Chad,

We received this meeting request for Dr. Phil Miller, Senior Vice President for Global Agricultural Relations at Bayer Crop Science on Wednesday, January 8th.

Please let me know if you are interested in the meeting and I will coordinate with their Director of Government Affairs.

Best,

Subject: Meeting Request

Hi Nate,

I work for Bayer Crop Science in the Washington, D.C. office. On Wednesday, January 8, Dr. Phil Miller – Senior Vice President for Global Agricultural Relations – will be in Washington for meetings. We were hoping to set up a meeting for him with Chad McIntosh to discuss international issues related to our crop protection portfolio. We will already be at EPA for a 2:00 PM, so were hoping to find some time with Mr. McIntosh as well. I very much appreciate your consideration, and please feel free to give me a call if that would be easier.

Many thanks and have a great weekend.

Best regards,

Luke Tomanelli
Director, Government Affairs
